Although the nature of the business to be discussed at the caucus is known by many an effort is being made to keep things quiet and Mayor Lee would have nothing to say about the

matter this morning. The mayor is bound to move the city harbor line out to the Federal line as the railroad desires and this last move on the part of the administration is taken by many to warrant the inference that Alderman Tague is the only Democrat whom the mayor can rely upon to aid him in giving away a veluable section of the harbor. Originally the mayor planned to enlist enough votes from both sides of the council to have the matter appear to be non-partisan. There are several of the Republican aldermen who received many votes in the last campaign and practically owe their election to their avowed intention to support the city harbor line. There are some other Republicans

who disapprove of both lines.
